TEAM MATCHES

If there are not enough entrants in the Regional 2700 to warrant a second relay, Team Matches will be run during the times allocated for Relay 2.

COURSE OF FIRE: Each team member will shoot National Match Courses with their .22, Centerfire and .45 firearms, subject to NRA Precision Pistol rules. Shooters are expected to shoot the same pistols as shot in the corresponding Regional 900.

SHOOTER HANDICAPS: Like in Golf, each Shooter will be assigned a handicap to allow shooters of differing skill levels to compete on an even playing field. In Golf, Handicaps are based on a Par Score of 72. For the purposes of this match, Handicaps are based on a Par Score of 291, and will be calculated for each 900 of the Regional.

Each shooter in the Team Matches will have a Median Score (MS) calculated for them based on their median* Slow, Timed and Rapid Fire scores from the corresponding Regional 900, without regard to Xs. The Handicap ('Cap) that corresponds to each median score can be found on the table below.

TEAM SELECTION: The 2-shooter Teams will be selected immediately after the Handicaps from the Regional .22 Match are posted. The shooter with the *highest* Handicap may select any shooter from the pool of Team Match shooters as their teammate. Once that selection is made, the shooter with the highest remaining handicap in the pool may select their teammate. Selection will continue until all shooters are paired.

COACHING: Coaching by the non-firing teammate during the match is allowed and encouraged. The non-firing teammate may scope shots and offer advice or guidance to the shooting teammate. The non-firing teammate may not touch the shooting teammate, other than to attract their attention, nor may they do anything distracting to other teams.

SCORING: The team score is the sum of the individual scores plus the Handicaps from each shooter. Xs will count as shot.

BONUSES: The following bonuses will be added to each team's final Team Match total

1 point for each level of NRA classification difference. A High Master teamed with a Sharpshooter would get 3 points, whereas 2 High Masters teamed would get none.

3 points if the Driver's Licenses of the teammates are from different states.
